

exceptional children's assistance center

Hello and Welcome!

The NC Family to Family Health Information Center is a project of The Exceptional Children's Assistance Center, home to NC Family Voices. We are funded, in part, by a grant from the Health Resources and Services Administration (HRSA).

Our goal is to provide health information and resources to parents with children with special health care needs. We have packets of information on various topics such as Private Health Insurance, Public Health Programs, Prescription Assistance Programs, Navigating the Mental Health System and Medical Home just to name a few. We offer this information in the form of packets which NC families can order by phone or email at no charge. These packets may also be presented in the form of a workshop for a group of parents. If you would like to schedule a workshop for your group, please contact us to set up a date!

"How to Be an Effective Health Care Advocate" is available in packet form and can also be presented to groups of parents as a workshop. We also wanted to make this available as an online workbook. Most modules can be completed in less than 10 minutes (Module 6 may take longer) and you can work at your own pace. Upon completion, simply fax or mail in your evaluation for a certificate of completion. Please feel free to contact us should you have any questions.

Best Wishes!
Wendy Ward
